Announcement: West Coast OKA Spares to Supply LT & XT Parts

We are pleased to announce that West Coast OKA Spares, owned and operated by Dane Field, has acquired the LT and XT spare parts business from OKA All Terrain (OzTerrain Pty Ltd).

This marks an exciting new chapter for the legacy OKA community. Dean Robinson and the team at OKA All Terrain have done outstanding work supporting LT and XT owners while advancing the new Gen-5 OKA development. The transfer of the legacy parts business ensures ongoing, dedicated support for owners of LT and XT vehicles while OKA Australia focuses on scaling production of the latest Gen-5 OKA.

Dane and his family are passionate OKA enthusiasts, with several OKAs of their own under restoration and upgrade. Their hands-on experience and commitment to the brand make them ideal custodians of this important responsibility.

West Coast OKA Spares' priorities include:

- Maintaining reliable supply of genuine LT and XT spare parts.
- Expanding inventory to meet evolving community needs.
- Developing upgrade packages to extend the life and performance of legacy vehicles.
- Collaborating closely with East Coast OKA parts suppliers to ensure national coverage and support for all OKA owners.

A message from OKA Australia:

Oliver Barnes, Executive Chairman of OKA Australia, said: "Aftermarket support for legacy OKA owners is a cornerstone of our community and a key part of our responsibility as custodians of the brand. Dane is the perfect fit to take on this role, he

lives and breathes OKA, understands the vehicles from the inside out, and brings an infectious passion for keeping them on the road. We are proud to endorse Dane and West Coast OKA Spares, and we look forward to working closely together to strengthen and grow the OKA community." Oliver Barnes, Executive Chairman, OKA Australia

We thank Dean Robinson for his long-standing service to the OKA community and wish Dane and West Coast OKA Spares every success as they take on this important role.
